Unisex reflective sweatshirt: 4V6 HV Essential, brand RIMECK

Sweatshirt with long sleeves, loose-fitting design. It is formed by one front part, one back part and long sleeves. Bottom hem, sleeves and neckline are finished with an elastic hem. Two horizontal retroreflective tapes are sewed all around the body and sleeves and vertical retroreflective tapes around the shoulders.

Unisex fleece reflective sweatshirt: 5V1 HV Fleece Jacket, brand RIMECK

Sweatshirt with long sleeves, loose-fitting design. It is formed by two front parts, one back part and long sleeves. It has a stand-up collar. Front parts have a zipper closure ending up in the collar. Bottom hem is finished with tunnel and string for regulation. The lower hems of the sleeves are finished with elastic tunnel. Front parts have slash welted inner pockets with zipper. Two horizontal retroreflective tapes are sewed all around the body and sleeves and vertical retroreflective tapes around the shoulders.

Fluorescent characteristics of the background material were tested after 25 cycles of domestic washing at 40 °C.

The retroreflective characteristics of the reflective materials were tested after 25-30 cycles of domestic washing at 60 °C (according to the type of retroreflective material).
