REACH Declaration of Conformity for 2026

Ladies and Gentlemen,

According to the EU-regulation REACH, which came into force on 01st June 2007, the following rules apply to products:

Products or their ingredients always have to be registered if the substance they contain reaches the quantity of one tonne per year **and** is intended to be released.

Moreover, article 7 of the REACH-regulation on certain specially harmful substances, the so-called SVHC's (**S**ubstances of **V**ery **H**igh **C**oncern), indicates a special obligation to notify the authorities. These substances have been published in a list by ECHA.

For the substances on the SVHC-list there is an obligation to inform the authorities if their concentration is over 0.1 %. Furthermore, there has been an obligation since 06/2011 to inform ECHA, if more than a total of 1 tonne is imported to the EU. However, REACH does not indicate a ban on using these substances.

This is to confirm that we will fully meet the obligations of the above-mentioned REACH-regulation. If there is an obligation to notify the ingredients of our products, we will comply with it. We are going to respect the legal requirements regarding the harmful substances (SVHC).
